

# METOLIKE

BEAUTIFULLY CRAFTED  
BY KELLS

The energy efficient alternative to  
steel/metal windows & doors.

# METOLIKE

BEAUTIFULLY CRAFTED  
BY KELLS

Established in 1997 by P&M Grimes & Sons. Kells through their highly experienced team have been crafting high quality, high performance timber windows & doors, that suit the harsh demanding four seasons in one day Irish & British climate.

Continuously investing in our brands, product development and state of the art manufacturing facility, we only deliver the best timber windows & doors on the market.

## Quality Not Quantity

Quality is very important to us, our expert craftsmen are highly experienced and will create historically accurate windows to your exact specification.

From manufacture to installation, your project receives the individual attention of an expert.

Our craftsmen can recreate a period window or turn an architect's design into reality and our expert surveyors can advise you on the best solution for your project.

You can be sure of maintaining the integrity of your property, whilst meeting the most stringent planning restrictions.

Every Kells product and installation process combines traditional joinery techniques and the latest glazing and draft proofing technology, creating new windows that achieve the highest levels of energy efficiency.

Our attention to detail extends to the considerate way our craftsmen work within your property throughout the installation process. From start to finish, they will aim to minimise the potential disruption to you and your property.

THE ENERGY EFFICIENT  
**ALTERNATIVE**

 TO STEEL/METAL WINDOWS

## Why Metolike

- Metolike will not rust or rot
- Metolike is energy efficient with an A rating on the complete unit not just the glass
- Metolike is environmentally friendly

## Standard product specification

- Made in Ireland
- Accoya wood
- Hand painted
- Complete unit wood & glass energy A rated
- Internally glazed
- Toughened units
- GU Secury automatic lock
- Frame twin sealed
- Premium door furniture
- 4 Standard colours to choose from
- CE Mark

## Optional extras

- Any ral colour
- Dual colours
- Concealed hidden alarms \*\*
- Acoustic glass

\*\* In conjunction with clients alarm company

ACCOYA

# INNOVATION

IN WOOD

Accoya<sup>®</sup> is wood, but not as you know it. It is modified timber in which a process called acetylation, a cutting-edge patented technology, enables it to resist rot, defy the elements and stay strong for decades. Guaranteed for 50 years above ground and 25 years in ground or freshwater, its performance and properties are remarkable. From joinery for the home to bridges submerged in water, Accoya<sup>®</sup> long life wood is a leading material that stands up to every application challenge.

## Features & Benefits

- Dimensionally stable
- Outstanding durability
- Perfect for coating

Accoya<sup>®</sup> modified timber has properties that match or exceed those of the best tropical hardwoods and treated woods, yet is manufactured using wood from sustainable sources.

Accoya<sup>®</sup> is the world's leading high technology long life wood.

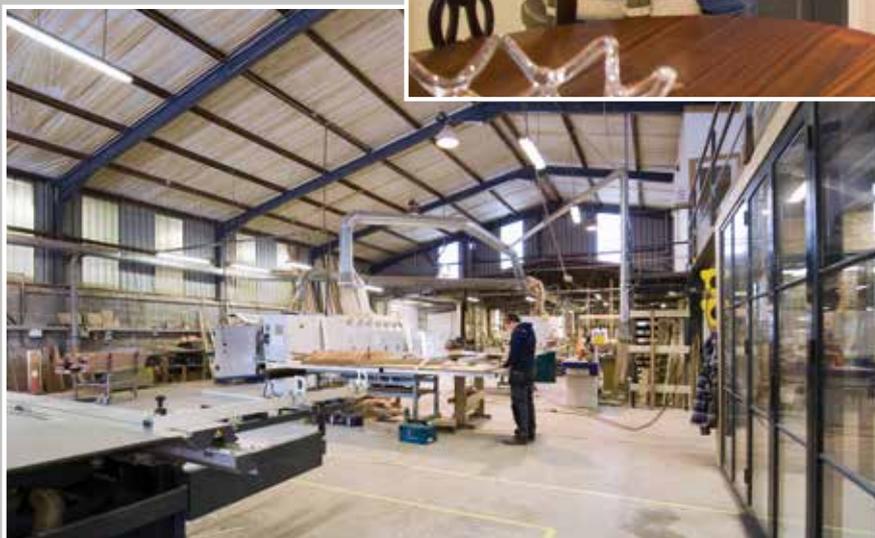

Of the various schemes for sustainable forestry available, the Forest Stewardship Councils<sup>®</sup> (FSC<sup>®</sup>) are regarded as the leading and most comprehensive certification programs available. Both programs not only focus on benign environmental performance but also safeguard social interests for all stakeholders involved.

STATE OF THE ART

# MANUFACTURING

FACILITY

With our roots in period craftsmanship and our expertise in the most advanced industry techniques, we can create sliding sash windows, exterior timber doors and contemporary style wooden windows to meet your exact requirements.

We achieve this by working closely with you or your architect and using only skilled craftsmen at every stage of the process, from planning through to installation. This is why the Kells name has been associated with prestigious refurbishment and new build projects since 1997.
